SUMMARY

Frontend Developer specializing in React.js with experience building secure, role-based web applications and integrating RESTful APIs. Strong foundation in JavaScript, authentication workflows, and scalable UI development.

WORK EXPERIENCE

Centillion Networks Private Limited | Nov 2024 – Dec 2025

Trainee Telecom Engineer

- Developed a **React**-based internal workflow dashboard to manage projects and employee timesheets.
- Implemented **secure authentication Login**
- Designed **role-based access control** to dynamically restrict **user permissions based on roles**.
- Integrated **RESTful APIs to fetch, update, and manage project and timesheet data**.
- Built protected routes using React Router to prevent unauthorized dashboard access.
- Developed complete timesheet workflow handling status transitions (Pending, Approved, Rejected).
- Managed global state using React **Hooks and Context API for authentication and shared data**.

Prodigy Infotech | January 2025

Web Development Intern [Link](#) **STOPWATCH** | **TICTACTOE** | **WEATHER APP**

- Developed responsive web applications using **HTML, CSS, and JavaScript**.
- Integrated **OpenWeather REST API to display real-time weather data**.
- Built interactive **UI projects including Stopwatch and Tic-Tac-Toe game**.

PROJECTS

Workflow Dashboard

Technologies: React.js, Firebase Authentication, JavaScript, RESTful API

- Designed and developed a **React.js-based workflow management dashboard with protected routes** and modular layout architecture.
- Developed modular dashboard with **protected routes and reusable components**.
- Integrated **RESTful APIs** and **Firebase Authentication** for secure data access.
- Structured navigation using **RESTful APIs**.

Restaurant Web Application - **Responsive UI**

- Developed **responsive design** for desktop, tablet, and mobile using **HTML and CSS**.
- Created custom navigation bar, organized grids, and an intuitive **user interface (UI)**.
- Designed a modern, aesthetic layout to improve user experience.

Enhancing Security Measures through Ethical Keylogging:

- Engineered keylogger with 40% improvement in data capture efficiency, securing 100% of captured data with encryption.
- Implemented automated alerts, reducing response times by 30%.
- Enhanced keyword detection accuracy by 100%, reducing false alarms by 15%.

SKILLS

- Programming Languages: Python, HTML, CSS, JavaScript
- Frameworks: React.js
- API: RESTful API
- Databases: SQL, MySQL
- Tools: Visual Studio Code, GitHub, Netlify.

EDUCATION

HOLY PRINCE MATRICULATION HIGHER SECONDARY SCHOOL

- | | | |
|--------|-----|-----------|
| • HSC | 81% | 2019-2020 |
| • SSLC | 86% | 2017-2018 |

KCG COLLEGE OF TECHNOLOGY

- | | | |
|--|------|-----------|
| • Bachelor of Engineering (Computer Science) | 8.02 | 2020-2024 |
|--|------|-----------|

CERTIFICATE

- **Introduction to Python:** Coursera [link](#)
- **Cyber Security Essentials:** Cisco Networking Academy [Link](#)
